Mr. Israr Ahmed Khan
Founder

Dear Beauty Professionals,
STADLER PROFESSIONAL is excited to share with you our new beauty tools catalogue.

This time you'll notice STADLER PROFESSIONAL has a whole new look, innovative new tools, and distinctive new packaging that reflects our ongoing commitment to the beauty professionals.

The inspiration for our new line and latest innovations originates with the beauty professionals themselves—makeup and brow artists, eyelash artists, nail technicians, pedicurists—who demand the highest level of quality and precision performance. Over the past years,

STADLER PROFESSIONAL design team has listened closely and responded to their unique needs for professional tools that not only help provide the best service and care to clients but also allow the professional's special talents and abilities to flourish!

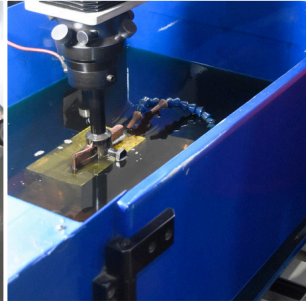

Moreover, the main reason for our confidence comes from consuming the highest quality materials used in our products. Our esteemed clients always hail our standard in quality, and that is why we are sure about the constant growth of the beauty line.

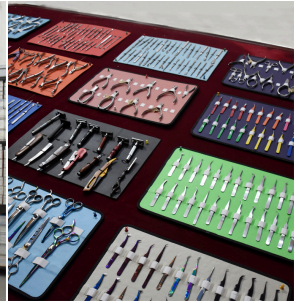

We have a team of skilled craftsmen and state-of-the-art technology. These both combine to create the finest products we offer to beauty professionals worldwide. We hope that you would provide us with an opportunity to serve you to the utmost satisfaction you desire.

Best Regards
Asim Israr Khan
